Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Saturday 30 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Wet and windy throughout. Rain heaviest along the south coast.

Today:
As rain clears from most eastern areas through the morning, further rain spreads from the southwest to most parts through the day, heavy at times. The south coast and Dartmoor can expect the heaviest downpours. Windy with coastal gales. Maximum temperature 10 deg C (50 deg F).

Tonight:
This evening, rain will clear southwards across the region, leaving a dry but largely cloudy night. Cold, with frost and ice patches likely to develop. Winds easing. Minimum temperature -1 deg C (30 deg F).

Sunday:
A cold, frosty start, then wind and rain sweeping eastwards across the region through the morning. Intermittent dry spells remain possible, but generally staying wet through the afternoon. Maximum temperature 7 deg C (45 deg F).

Outlook for Monday to Wednesday:
Cloudy and less windy on Monday, with rain turning patchy. Wet, windy and mild on Tuesday. Brighter and more showery on Wednesday.
